

Trojan 17

Powerful, Heavy Duty Scrubbing Machine

Technical Data

Product Code	VR-T17
Voltage	240V
Motor Power Rating	1500 W
Speed	180-200 rpm
Cleaning Width	450 mm
Weight	38 kg
Noise Level (dBA)	57

Designed for the heaviest of tasks the Trojan is a powerful workhorse.

The corrosion-proof undercover allows the strongest cleaning chemicals to be used without causing damage to the machine.

An exceptionally powerful rotary, the Trojan is capable of being loaded with over 65 kg's of weight. Operating at 180 rpm the Trojan is ideal for scrubbing and scarifying. When used in conjunction with weight it is excellent at diamond grinding of marble and other stone floors.

Despite its power the Trojan is well balanced and comfortable to use even for inexperienced operators. The range of attachments includes tanks (15-litre recommended), and a full range of brushes including a high performance polypropylene scrubbing brush and a couple of different scarifying brushes. The machine comes complete with a drive board for use with pads or diamond disks for marble preparation.

Also available as 110v.

The Victor Trojan 17 provides powerful cleaning performance with exceptional ease of use.
